# Anselm Marie

Tucker, GA • 404-432-6815 • anselmmariebusiness@gmail.com • linkedin.com/in/anselm-marie • anselmmarie.github.io

Results-driven professional with over ten years of experience in front-end and back-end development, along with a strong foundation in UI/UX. Highly skilled in leadership and continuously learning new technologies. Adept at managing teams and projects and developing strategic roadmaps to drive success.

## WORK EXPERIENCE

### Senior Software Engineer Lead • Atlanta, Georgia
**Cricket Wireless**                                                                          **Mar 2020 - Present**

- Production issues were reduced by my team after using code standards and processes I created.
- Managing the agile/kanban workload, JIRA tickets, and the tech debt roadmap.
- Ongoing efforts to ensure the application's scalability and maintainability.
- I mentored junior and intern developers in learning the ropes and becoming productive members.
- Designing UI/UX as the lead while teaming up with other designers.
- I'm spearheading the development of a design system to provide a consistent and reusable set of components and utilities for our applications.
- I'm using React, Angular, Node.js, Typescript, Webpack/Vite, Module Federation, Full Story, Bugsnag, Bootstrap, Git, Storybook, Nx/Monorepo, REST APIs, SASS, Figma/Adobe XD, etc.

### Senior Developer Manager • Atlanta, Georgia
**Cricket Wireless**                                                                          **Dec 2017 - Jan 2019**

- Built and maintained strong relationships with stakeholders.
- Built greenfield applications where one earned me an "AT&T Service Excellence Award."
- Used ES6+, Webpack, Babel, jQuery, HTML, CSS, Git, Adobe AEM, Bootstrap, and REST APIs.

### Senior Application Developer • Atlanta, Georgia
**Cricket Wireless**                                                                          **Dec 2013 - Dec 2017**

- Responsible for the ongoing maintenance and development of the Cricket Wireless website.
- Built multiple internal applications for different areas in the company.
- Used ES6+, Webpack, Babel, jQuery, HTML, CSS, Git, Adobe AEM, Bootstrap, and REST APIs.

### Senior Application Developer • Alpharetta, GA
**ADP**                                                                                        **Aug 2019 - Jan 2020**

- Developed and maintained features for ADP's desktop and mobile apps.
- Used React, Redux, AngularJS, Angular, SASS, LESS, and Typescript.
