## SUMMARY

With over a decade of experience in frontend and backend development, complemented by a solid understanding of UI/UX principles, I am a results-oriented professional. My expertise extends to leadership, where I excel in guiding teams, overseeing projects, and crafting strategic roadmaps to achieve success. Constantly adapting to emerging technologies, I am committed to continuous learning and growth.

## SKILLS

React · React Native · Expo · Next.js ·
PostgreSQL · JWT · Authorization ·
Design System · CI/CD · UI/UX ·
Leadership · Agile/Kanban

## HOBBY PROJECT

### Cosmikata

02/2023 - Present                Tucker, GA

Creating an application tailored for cosplayers and cosmakers, I am developing it by incorporating a range of industry-leading practices and standards accumulated throughout my professional journey.

My approach to constructing this application involves:

- React
- React Native
- Expo
- Next.js
- Node.js
- PostgreSQL
- Prisma and SQL Query
- Nx Monorepo
- CI/CD: GitHub Actions
- Figma
