Results-driven professional with over ten years of experience in frontend and backend development and a strong foundation in UI/UX. Highly skilled in leadership and continuously learning new technologies. Adept at managing teams and projects and developing strategic roadmaps to drive success.

WORK EXPERIENCE

Cricket Wireless - Atlanta, GA
Senior Software Engineer Lead - Mar 2020 to Oct 2023
- Production issues were reduced by my team after using code standards and processes I created.
- Ongoing efforts to ensure the application's scalability and maintainability.
- Mentored junior and intern developers to help them learn the ropes and become productive team members.
- I facilitated interviews with designers and developers as part of the team selection process.
- Spearheading the design system development to provide a consistent and reusable set of components and utilities for our applications.
- Managing agile/kanban workload, JIRA tickets, and the tech debt roadmap.
- Designing the UI/UX of our applications to be user-friendly and engaging.
- Using React, Redux, Node.js, TypeScript, Webpack/Vite, Module Federation, Full Story, Bugsnag, Git, Storybook, Nx/Monorepo, Tailwind, REST APIs, SCSS, Figma, Adobe XD, etc.

Macy's - Atlanta, GA
Sr. Associate - Projects - Jan 2020 to Feb 2020

ADP - Alpharetta, GA
Senior Application Developer - Aug 2019 to Jan 2020
- Developed and maintained features for ADP's desktop and mobile apps.
- Used React, Redux, AngularJS, Angular, SCSS, LESS, and TypeScript.

Cricket Wireless - Atlanta, GA
Senior Developer Manager - Dec 2017 to Jan 2019
- Built and maintained strong relationships with stakeholders.
- Built greenfield applications where one earned me an "AT&T Service Excellence Award."
- Used ES6+, Webpack, Babel, jQuery, HTML, CSS, Git, Adobe AEM, Bootstrap, and REST APIs.

Senior Application Developer - Dec 2013 to Dec 2017
- Responsible for the ongoing maintenance and development of the Cricket Wireless website.
- Built multiple internal applications for different areas in the company.
- Used ES6+, Webpack, Babel, jQuery, HTML, CSS, Git, Adobe AEM, Bootstrap, and REST APIs.

Corporate Reports, Inc. - Buckhead, GA
